Career Objective

Software Engineering and Data Engineering candidate with hands-on experience in Java, Python, SQL, Spring Boot, REST APIs, PostgreSQL, ETL pipelines, data quality, Apache Spark, Apache Kafka, and Apache Airflow. Experienced in designing backend and data platforms for e-commerce, supply chain, and healthcare domains, combining software engineering, data processing, event-driven architectures, and database systems. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Seeking opportunities in Data Engineering, Software Engineering, Java Backend, and SDE roles.

Technical Skills:

Programming: Java, Python, SQL

Data Engineering: ETL/ELT, Data Transformation, Data Quality, Data Modeling, Batch Processing, Streaming Pipelines, Data Validation

Big Data & Streaming: Apache Spark, PySpark, Apache Kafka

Orchestration: Apache Airflow

Backend Development: Spring Boot, Spring MVC, REST APIs, JPA, Hibernate

Databases & Warehousing: PostgreSQL, MySQL, Snowflake, Google BigQuery

Cloud & DevOps: Google Cloud Platform, Docker, Linux

Software Engineering: Object-Oriented Programming, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, System Design Fundamentals

Architecture: Layered Architecture, RESTful Services, Event-Driven Architecture, Microservices Fundamentals

Security: JWT Authentication, Role-Based Access Control

Tools & Libraries: Pandas, Git, GitHub, Postman

Soft Skills: Problem Solving | Analytical Thinking | Communication | Team Collaboration | Adaptability | Time Management

Projects

ShopFlow – Intelligent E-Commerce Data Platform

Python, SQL, Java, Spring Boot, PostgreSQL, Apache Kafka, Apache Spark, Apache Airflow, BigQuery

- Designed an end-to-end e-commerce data platform for processing customer, order, payment, inventory, and product events across real-time and batch workflows.
- Built ETL pipelines using Python, Apache Spark, and Apache Airflow to transform transactional data into analytics-ready datasets and business KPIs.
- Developed modular backend services using Java and Spring Boot for user management, product catalog, cart, order, payment, and inventory workflows.
- Designed REST APIs with Spring Boot, JPA, and PostgreSQL, incorporating validation, exception handling, authentication, and event publishing.

CargoPulse 2.0 – Smart Supply Chain Intelligence Platform

Python, SQL, Java, Spring Boot, PostgreSQL, Apache Kafka, Apache Spark, Apache Airflow, BigQuery, Docker

- Designed a supply-chain intelligence platform for processing shipment, inventory, warehouse, fleet, and delivery events.
- Developed data pipelines using Python, Apache Spark, and Apache Airflow for batch and streaming analytics.
- Built event-driven workflows using Apache Kafka to process operational events for downstream services and analytics.
- Developed backend services using Java and Spring Boot for shipment, warehouse, inventory, fleet, and delivery management.
- Built analytics workflows to monitor delivery performance, inventory utilization, operational KPIs, and potential delays.

MediTrust – Hospital Data Reliability & Patient Safety Platform

Python, SQL, Java, Spring Boot, PostgreSQL, Apache Spark, Apache Kafka, Apache Airflow, BigQuery

- Designed a healthcare data reliability platform focused on identifying duplicate records, missing values, invalid records, and inconsistent healthcare data.
- Developed automated data-quality and ETL workflows to produce reliable datasets for hospital operations and analytics.
- Applied Python, SQL, and Spark-based processing to validate and transform healthcare datasets.
- Built backend modules using Java and Spring Boot for patient, doctor, appointment, pharmacy, laboratory, and billing workflows.

Awards & Achievements

- Advanced Level Winner – PyExpo24, KGiSL Institute of Technology.
- Upcoming TEDxKGCAS Speaker – Officially selected to deliver a TEDx talk on 17 August 2026.

Education

KGiSL Institute of Technology | 2023–2027

B.E. Electronics and Communication Engineering | CGPA: 9.02/10.0
